Welcome to Frank Key

At Frank Key Plant & Tool Hire we take pride in making available the kind of high-quality products and services that quite simply, help you get the job done.

Whether you're a weekend DIYer, a hardworking builder, a trade landscaper or a developer, we have hire equipment available and at your disposal.

And when you commit to Frank Key Plant & Tool Hire you benefit from our guarantee. That all products are of the highest quality, maintained at the highest levels and presented at their very best. All supported with our full warranty and acknowledged levels of outstanding customer service. We also have an excellent tool repair offering to fix, service and sharpen your essential kit.

With your convenience at the heart of our offering, you can call, email or visit one of our sites to browse, seek advice or collect the right kit for your job. With branches across the Midlands, Yorkshire and Lancashire, there's a branch near you. And for trade customers moving between sites, the National Hire Direct service will get plant and tools to where they need to be.

What You Need. When You Need It.

Setting Up An Account

As a Frank Key Plant & Tool Hire account holder, you will benefit from having a single contact for all your tool hire needs and you may be able to take advantage of our National Hire Direct* service.

If you would like to apply for a credit account with us, request and complete an application form by either:

- Emailing
Send your request to accountapps@frank-key.co.uk
- Website
Visit www.frank-key.co.uk/hire and complete our account application form online
- In Person
Visit your nearest Frank Key Plant & Tool Hire branch to request a form
- Telephone
Talk to our accounts department on 01422 254 999

In order to avoid delays in processing your application, please ensure you have:

- Sole Trader
Two forms of identification (either a driving licence or passport, and a household utility bill no older than three months)

- Limited Companies
Three trade references from reputable suppliers ideally tool hire or building companies

Post or email your completed application form, along with any supporting documentation to our Accounts department (details below), and providing all sections have been completed correctly and subject to receipt of the relevant credit checks and references, we will endeavour to open the account within a seven-day period from receipt of your application.

How To Hire

0800 344 344

Check availability at your preferred branch, see the back cover for contact details

Visit us

To find your local branch see the back cover for details or visit frank-key.co.uk

Email

You can also email your local branch - links available at frank-key.co.uk

Hiring the best tool for the job is as easy as 1, 2, 3

Discuss and reserve your hire requirements with our highly trained and experienced staff, by telephone, email or just call into one of our branches.

Payment – If you do not have a credit account, you can still hire from us on a cash basis. Simply leave a deposit via card payment, and subject to acceptable forms of ID being provided**, you will be eligible to hire.

If you require collection of a product, call the branch you hired from. The security of any equipment remains your responsibility until it's collected by us or has been returned. Equipment remains on hire until returned to one of our branches.

No account?

If you don't have a credit account with Frank Key Plant & Tool Hire, we will require two forms of identification (either a driving licence or passport, and a household utility bill no older than 3 months). A card deposit will be required (the amount will vary depending on the item(s) being hired and the hire period).

Cleaning

If the equipment is not returned in the condition in which it was hired, an additional cleaning charge will be applied.

Delivery

Our fleet deliver goods for hire and sale to areas throughout Derbyshire, Lancashire, Nottinghamshire and Yorkshire. We will ensure you get the tools you need, when and where you need them. Delivery and collection charges apply – all prices shown in this guide are exclusive of transport charges; which are priced on application.

Hand-arm Vibration Risk

Hand-arm Vibrations (HAV) are produced and transferred through the equipment into the operators' hands and arms when carrying out certain working processes.

If anyone suffers enough exposure to these vibrations for lengthy time periods during the day or over extended periods (weeks, months or years) irreversible injuries could be caused.

To protect yourself and your employees, ensure everyone is aware of the symptoms which could indicate Hand Arm Vibration Syndrome. Symptoms are:

- Tingling (pins & needles) in your arms and hands.
- Numbness in your arms and hands, especially on your finger tips and around your knuckles.
- Difficulty in using your hands to pick up or hold items like pens, coins etc.

Equipment selection

Ensure that you use the right tool for the job. If the tool is too small or not powerful enough it is likely that it will take longer for the job to be completed and can expose you to vibration for longer.

Workstation design

Think about how to arrange your workstation to minimise the impact on hands, wrists and arms caused by poor posture and gripping heavy tools tightly.

Work schedules

Plan your work schedule so you are not exposed to vibration for long periods of time by taking frequent breaks and limiting the overall time you are exposed to vibration.

Clothing

Ensure you wear protective clothing to stay warm and dry, to maintain good blood circulation which should help defend against developing vibration white finger. However, please do not solely rely on gloves to protect you against vibration and take other precautions as well.

For more information on Hand-arm Vibration Syndrome, please visit www.hse.gov.uk/vibration/hav/

A guide to HAV colour code

Low vibration levels
between 0 - 2.5m / s²

Medium vibration levels
between 2.5 - 5m / s²

High vibration levels
over 5m / s²

Health And Safety

At Frank Key Plant & Tool Hire, each tool hired has been thoroughly examined for maintenance and safety by our experienced fitters. Your safety is our priority.

HAE certified

The certification proves that Frank Key Plant & Tool Hire are competent in safety, health, environment and quality, continuing to meet high standards of customer service through a well trained workforce.

General advice

Make sure you are confident and trained to correctly use the tools you hire. We pride ourselves on providing exceptional service and advice. If you are unsure of how to use a tool properly please ask a member of the Frank Key Plant & Tool Hire team, who will be happy to advise you.

Personal Protective Equipment

It's important to choose the right Personal Protection Equipment (PPE) when working with any tools in order to reduce your risk of injury. Please refer to the safety symbols illustrated below, which you will see throughout this guide, to help determine what PPE items we recommend you use.

A tall, silver, multi-level scaffolding tower is positioned against a modern building with large glass windows and a brick base. A worker in a yellow safety vest is visible at the top of the tower. A large red rectangular overlay covers the upper right portion of the image, containing white text. The scaffolding has multiple levels with horizontal and vertical bars, and it is supported by four legs with red casters at the base.

Scaffold Towers

Scaffold Towers

All our mobile alloy towers come ready for erection.

Complete with all the required components to ensure a safe method for working at height.

Each tower includes:

- Safety toe-boards & stabilisers
- Adjustable locking castor wheels
- Handrails

To help you decide which size you require we have listed the available tower options below, by **platform height** (the height at which your feet are at).

Contact us to arrange your PASMA training requirements.

Access

Folding Indoor Scaffold

The folding mini indoor scaffold tower provides a safe and stable access solution for interior decorating and maintenance work that is not only quick and easy to erect, but will fit in most estate cars and vans.

- Base dims (L x W): 1.8m x 0.77m
- SWL 275kg
- Max. 1.80m platform height
- Indoor use only

CODE PRODUCT / POWER / SIZE
H01-TOW001 1.80m

Self Erecting Tower

A flat pack version of the folding indoor scaffold but with a higher platform. Erects in minutes.

- Base dims (L x W): 1.77m x 0.77m
- SWL 150kg
- Max. platform height: 2.0m

CODE PRODUCT / POWER / SIZE
H01-TOW005 2.0m

Stairway Access Tower

The stairway access tower is designed specifically for use within stairwells, offering a safe and comfortable solution for those hard to reach areas. It offers a 2m platform height from the lowest step it is placed on and comes complete with a twin adjustable guard rail.

- Base dims (L x W): 1.3m x 0.6m
- SWL 100kg
- Max. platform height: 2.0m

CODE PRODUCT / POWER / SIZE
H01-TOW010 2.0m

Access

Mi Tower Mobile Scaffolding

Mi Tower is a versatile and high-quality one person rolling access tower designed in accordance with the latest testing and quality standards.

- Quick to assemble and dismantle by **one person**
- Assemble a tower up to 4m platform height in under 10 minutes
- Stable, strong and robust
- Compact and easy to transport
- Fits through any standard door opening and in many commercial vehicles
- Dimensions 127 x 83 x 158 cm (L x W x H)

Mi Tower Mobile Scaffolding Stair Pack

- Extension set - extends up to 6.2m platform height
- **Two person** assembly
- Ideal scaffold to work safely and move into a narrow stairwell
- Small footprint & walk through design

CODE	PRODUCT / POWER / SIZE
H01-TOW015	Mi Tower 4.0m
H01-TOW020	Stair Pack 6.2m

Scaffold Board

Scaffold boards have a variety of uses and come in three different sizes.

- Commonly used for all scaffolding and general purpose applications such as trestle tables, tread boards & decorating planks.
- Scaffold board lengths range from 2.4m to 3.9m

Available to hire or buy.

CODE	PRODUCT / POWER / SIZE
H01-SCA000	Scaffold Boards 2.4m (8ft)
H01-SCA005	Scaffold Boards 3.0m (10ft)
H01-SCA010	Scaffold Boards 3.9m (13ft)

Access

Staging

Our lightweight universal staging is ideal for use with steel, timber or alloy trestles.

- Deck width 450mm
- Used with guard rail to provide high-level access
- Require only 300mm overlap

CODE	PRODUCT / POWER / SIZE
H01-STA000	3.0m
H01-STA005	3.6m
H01-STA010	4.2m
H01-STA015	4.8m
H01-STA020	5.4m
H01-STA025	6.0m
H01-STA030	Handrail Set (20ft)

Trestles

Used with scaffold boards or stagings. Steel trestles provide a quick and cost effective solution for low level access requirements, commonly used by brick layers and plasterers.

- Scaffold board lengths range from 2.4m to 3.9m

CODE	PRODUCT / POWER / SIZE
H01-TRE001	No.1 (ext. 450mm-750mm)
H01-TRE002	No.2 (ext. 750mm-1200mm)
H01-TRE003	No.3 (ext. 1000mm-1800mm)

Trestle Handrail System

Our trestle handrail system is an ideal solution to providing a safe system of work when using traditional builder's trestles. Designed to comply with the working at height regulations and has been fully tested in accordance with BS EN 13374.

- Simple locking gate and bracket provides easy access to the system once erected
- Stabilisers not only ensure a more rigid system but improve the stability of the structure
- Fast and simple to install

CODE	PRODUCT / POWER / SIZE
X01-TRE010	

Steps & Ladders

Steps

Aluminium and GRP steps available in various sizes as detailed.

CODE	PRODUCT / POWER / SIZE	HEIGHT	WEIGHT
H02-STE000	6 Tread	1.45m	5.2kg
H02-STE010	8 Tread	1.95m	7kg

Powered Access

Aerial Work Platform

- Available up to 30ft working platform height
- One person
- Indoor use only
- Quick set-up and simple to operate
- User-friendly controls
- Small outrigger footprint for positioning close to walls
- Easy to manoeuvre
- Push into place
- Battery - vertical lift

CODE PRODUCT / POWER / SIZE
H03-POW000 AWP 25/30

Fall Arrest System

Recommended for use where the potential of a fall exists. This safety harness is fully adjustable for user comfort. The energy absorbing lanyard reduces the effect of a fall on the wearer's body.

The harness and lanyard must not be reused after deployment.

Available in two types:

- Fixed
- Energy absorbing

CODE PRODUCT / POWER / SIZE
H03-POW050 Harness & Lanyard

Compact Scissor Lift

This compact scissor lift offers real savings in operating times. Battery operated and self propelled, which can be driven when elevated.

Features include:

- 5.8m Platform Height
- One person only for external use
- Two person indoor
- Folding cage for confined entrances
- Extending platform
- Built in smart charger (110v)
- 28mph wind restriction
- 1498 kg
- 1800(L) x 820(W) x 1550(H)mm
- Battery powered

CODE PRODUCT / POWER / SIZE
H03-POW010 5.8m

Powered access and machinery - It is the responsibility of the hirer to ensure that the persons using the equipment have received the appropriate instructions, information and training.
If you are not fully competent, please contact us to arrange training 0800 344 344.

Powered Access

Low Level Powered Access

These machines are designed for a multitude of indoor tasks including building & construction, particularly fit & strip out, shop fitting, painting & decorating, general maintenance, cleaning as well as facilities management. Easy to manoeuvre and has many safety features. Please contact our team for more information on the options available.

- Platform height options - 2.5m, 3.1m
- Fits through a standard doorway or into a small passenger lift
- Easy to manoeuvre via heavy duty castors with non-marking tyres
- Tilt sensor with ascent interlock and alarm
- Platform overload sensor with ascent interlock and LED indicator on handset
- Quick access to non-powered emergency descent

CODE

X03-POW005

Scissor Lift - Self Propelled

Self-propelled Scissor lifts are the industry solution for increasing worksite productivity. Ideal for manoeuvring in tight spaces, they're excellent for indoor and outdoor construction, maintenance and installation applications with firm, level surfaces. Characterised by low noise levels, these lifts provide excellent capacity and maximum platform workspace where a straight vertical lift is required.

- 6.0m up to 30m
- Battery / Bi-fuel / Diesel options available

Enquire for more details

CODE

X03-POW020

Truck Mounted Platforms

With exceptional reach heights of up to 57 metres, our Truck Mounts are a cost-effective way for working at height in a variety of applications. Truck mounts are found to be more efficient and easier for getting to and from sites quickly and are ready to use in minutes.

- Reach heights from 20m up to 57m

CODE

X03-POW100

Powered Access

Boom Lift - Trailer Mounted

Trailer mounted boom lift with two booms and a telescopic arm, to give optimum coverage.

Features include:

- 12m working height
- Vertical platform height 10.4m
- Hydraulic stabilizing legs
- 1438kg
- 5500(L) x 3590(W) x 1940(H) mm
- Battery powered
- Outreach of 5.6m from centre
- Built-in smart charger (110v)

Note: As a guide for every metre you outreach, a metre is lost in height.

CODE

H03-POW030

Boom Lifts - Self Propelled

Self Propelled Boom Lifts provide the ability to lift up, over and out with precise positioning for ultimate versatility in hard-to-access work areas, allowing obstacles to be navigated at height.

All are compact and manoeuvrable and can be driven from the platform in any boom position, saving time and improving efficiency. With 'narrow' and 4WD chassis options available.

Enquire for more details.

- 6m up to more than 30m

Excavators

Digger 1ton (Micro)

The Micro Digger is the smallest type of excavator available on the market, whilst still offering plenty of power, but with the added benefit of accessibility in the tightest of spaces. Able to adjust its track gauge from 860mm to 760mm, this digger ensures access through the narrowest of spaces. The zero-tail swing gives you the greatest flexibility to pivot and deposit soil, while offering the most protection against accidental damage.

- Model: E10 Bobcat
- Diesel
- Width 760mm to 860mm (retractable axle)
- Height 1500mm (with the safety bar down)
- Height 2210mm (with safety bar up).
- Digging depth up to 1800mm.
- Weight 1176 kg
- Fold down tip over protective structure (TOPS)
- Retractable undercarriage
- Two speed travel
- Retractable blade

These features, along with its maximum digging depth of 1800mm and compact design make it a great option for projects where space or access is limited or restricted and where exhausting manual labour is your only other option. Essentially this machine can go where other diggers cannot.

Bucket sizes available: 230mm, 300mm, 450mm, 600mm

Delivery and collection charges applicable.

CODE.....
H24-PLA000

Excavators

Digger 1.5ton (Mini)

The 1.5t digger is the backbone of the Frank Key Tool Hire fleet. These machines are very popular because of their power and versatility, whilst still reasonably compact. The Bobcat® E17 compact excavator delivers performance in confined spaces with the need for only minimal repositioning. The operator can hydraulically retract the undercarriage to a width of only 980mm, in order to travel through gates or between walls and houses, then expand it to 1360mm for a wider footprint and greater performance. The E17 has reduced tail swing for better versatility and manoeuvrability on compact sites.

- Model: E17 Bobcat
- Diesel
- Width 980mm
- Digging depth up to 2300mm.
- Retractable undercarriage & Blade
- Conventional Tail Swing
- Two speed travel
- Dual direction detent

Bucket sizes available: 150mm, 230mm, 300mm, 450mm, 600mm and 900mm ditching bucket

Delivery and collection charges applicable.

CODE

H24-PLA010

Excavators

Digger 3ton

The Bobcat E26 excavator features minimal tail swing to reduce the risk of damage to your machine and surrounding objects. With its compact size and excellent flotation, the E26 easily manoeuvres around established lawns, crowded sites and sensitive surfaces.

- Model: E26 Bobcat (3ton)
- Width 1515mm
- Digging depth up to 2800mm
- Selectable control pattern
- Auto Idle & Auto Shift
- Fingertip Boom swing control
- Two speed travel
- Dual direction detent
- Blade float

Bucket sizes available: 300mm, 450mm, 600mm and 900mm ditching bucket.

Delivery and collection charges applicable.

Dumpers

Dumper 1ton High Tip

At just over 1 metre wide, with a 1ton payload capacity, these versatile machines are ideal on jobs where space is at a premium. They have the added benefit of hi-tip capability, allowing the user to lift above the height of most skips.

- Skip Type: Hi-Tip (Non Swivel)
- Diesel
- Max Safe Load 1000kg
- Unladen Weight 1295kg
- Width 1115mm
- Length 3032mm
- Height (without ROPS*) 1733mm
- Height (with ROPS*) 2860mm
- Tipping Height 1550mm
- Volume (Level) 280 Litre
- Volume (Heaped) 500 Litre

Delivery and collection charges applicable.
* ROPS – Roll-over protective structures

CODE	PRODUCT
H24-PLA040	1ton

Dumper 3ton Swivel

These dumpers have the same features as a standard dumper but with the added benefit of a Powerswivel function, allowing the machine to rotate through 180 degrees to tip to the front or either side, making them ideal on jobs where turning space is limited.

- Skip Type: Swivel
- Diesel
- Max Safe Load 3000kg
- Unladen Weight 2160kg
- Width 1650mm
- Length 3935mm
- Height (without ROPS*) 2000mm
- Height (with ROPS*) 3092mm
- Tipping Height 735mm
- Volume (Level) 990 Litre
- Volume (Heaped) 1640 Litre

Delivery and collection charges applicable.
* ROPS – Roll-over protective structures

Dumpers

Mini Tracked Dumper (500kg) High Tip

This Tracked Dumper offers versatility on small confined jobs, combining a compact design with ultimate performance. Designed for professional use with a very strong undercarriage this barrow will easily operate on difficult soft terrain, climb stairs and negotiate pathways.

- Skip Type: High-Tip
- Petrol / Diesel
- Width 690mm, Length 1550mm
- Height 1030mm
- 500kg payload
- Tipping height 1370mm
- Volume 0.255m³

Delivery and collection charges applicable.

CODE	PRODUCT
H24-PLA060	500kg

Skid Steer

The Bobcat skid steer has many applications. With its four-in-one bucket it can lift, scoop, grab and drop its load. It can operate in very small areas and is easy to use.

- Model: S100 Bobcat Skid Steer
- Diesel
- Width 1100mm *(exc. Bucket attachment)
- Height 1850
- Maximum load 400kg

The Bobcat S100 is the right size with enough lift capacity to help you in the tightest of spaces. It's a durable solution for all your industrial needs. Bobcat loaders will meet your high expectations for performance, every time you use them. The design, balance and weight distribution has been perfected to deliver more usable horsepower, powerful breakout forces and faster cycle times. With a skid steer loader, you can work quicker, lift more and outperform your competition.

Attachments: Bucket: 44"/1120mm Wide.

Delivery and collection charges applicable.

CODE
H24-PLA030

Rollers

Pedestrian Roller

Perfect for the larger jobs where a compactor plate is just too small. Forward and reverse drive makes these the first choice whenever manoeuvrability, transport, quality and coverage are key factors. They are ideal for asphalt applications and repair and maintenance work.

CODE	PRODUCT / POWER / SIZE	VIBRATION
H07-COM050	21 inch Petrol	4.3 ▲
H07-COM060	28 inch Diesel	5.5 ▲

Ride On Roller 1.5ton

Whether for asphalt or earthworks, compaction is a breeze with this BOMAG tandem roller.

The self-explanatory operation and optimal performance of this machine means the highest quality result every time.

The AD80 provides the perfect roller size for compacting asphalt and hardcore, featuring a water reservoir to prevent adhesion to the twin drums, improving the overall finish.

- Diesel
- Width [Roller] 800mm
- Width 860mm, Length 2200mm
- Height 1650mm (with the safety bar in the down position)
- Height 2350mm safety bar up

Delivery and collection charges applicable.

CODE
H24-PLA080

Trench Roller

When work demands high-quality solutions this articulated, radio-controlled, multi-purpose compactor gets to the places where operators can't go, or would rather not go.

This multi-purpose compactor achieves outstanding compaction results on soil compaction in trenches, sewers, pipeline construction, foundations, roads and parking lots.

CODE
X24-PLA090

Telehandlers

Telehandlers

These telescopic handlers are high performers offering speed, stability and visibility and are true allies in your quest for productivity and simplicity, ensuring you carry out all your construction work safely and efficiently.

We have a range of telehandlers for hire ranging from 6m to 17m reach, low headroom and turbo models. We can also provide a large variety of materials handling accessories to fit them should you have any specific applications.

Diamond Blades

At Frank Key Plant & Tool Hire we are committed to providing you with the best quality tools and equipment to get your job done. This is why we have selectively partnered with Duro to ensure we offer you a quality range of diamond blades and accessories to suit all applications.

Below are a few examples of the popular blades available;

Construction Materials

Good speed of cut and life, for use on: House bricks/ All reinforced concrete types/ Facing bricks/ Concrete kerbs, beams, lintels & flags/ House bricks/ Abrasive materials/ Occasional use in asphalt

Asphalt & Abrasive Materials

A laser welded blade for use on: Soft concrete pavements/ Abrasive blocks/ Cement screed/ Asphalt/ Grit stone

Concrete & Asphalt

A laser welded blade with a wide gullet, fast cutting with a long life for use on: Indian stone/ Class A engineering bricks/ Clay products/ All reinforced concrete types/ Granite/ Hard bricks/ House bricks/ Abrasive materials/ Asphalt/ Concrete kerbs, beams, lintels & flags

Building Materials

A blade with a 10mm segment height ensuring less chipping and reduced vibration, for use on: Hard bricks / Lightly reinforced concrete / Concrete kerbs, beams lintels & flags / Facing bricks / General purpose

Tile Cutting

Tile Saw Radial Arm

These tile saws offer accurate cutting for larger tiles. Tiles can be cut straight or at angles.

650mm and 1000mm bed sizes available.

We recommend buying a new blade from us for large or expensive jobs.

Air Conditioning Unit

This air conditioning unit is easy to use and compact. With any air conditioner the vent pipe requires an opening in the room to expel the warm air.

CODE	PRODUCT / POWER / SIZE
H15-AIR001	230v

Plaque Heater (Single/Double)

Available in a single or double radiant element versions, these robust heaters are ideal for on-site use.

- Suitable for use with a propane gas cylinder (any size)
- Flame failure safety trip fitted as standard
- Gas sold separately

CODE	PRODUCT / POWER / SIZE
H15-HEA035	Propane

Evaporative Cooler

The evaporative cooler has a low power usage and does not require an external vent. Simply fill with water and the internal fan will circulate cool air.

CODE	PRODUCT / POWER / SIZE
H15-FAN010	230v

Dehumidifiers

Dehumidifier (Domestic)

Ideal for humidity control in small domestic spaces such as bedrooms and caravans.

CODE	PRODUCT / POWER / SIZE
H16-DEH000	230v

Need help and advice on what equipment will best suit your needs? Ask or call your local branch, we are here to help.

Turbo Dryer

A funnelled fan unit that sits low to the floor, making air movement under carpets and floors very effective when used with a dehumidifier.

CODE	PRODUCT / POWER / SIZE
H16-DEH030	230v

Dehumidifier (Industrial)

This portable but robust dehumidifier is the industrial mainstay of dehumidifying. Perfect for dealing with leaks, floods and humidity control across commercial and domestic properties.

- New build structural drying
- Floor and fire restoration
- Humidity control across all property type
- Mains power supply required
- Capacity: 55 litre/ day

Dehumidifier (Small Industrial)

Designed for new construction and wet trade drying, our smallest industrial dehumidifier is also ideal for restorative drying after fire or flood and cellar/basement drying.
